REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claims 1-20 are allowed over the prior art of record. Current invention teaches a chip resistor having a surface of the resistor element formed with a plating layer made of pure metal with resistance lower than that of the alloy making the resistor element, the plating layer extending continuously from one end of the resistor element to the other end of the resistor element. Claimed limitations in combination with the recited limitations of the base claim are neither disclosed nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
